SUPERYACHTT STEW / DAY SKIPPER PACKAGE

SUPERYACHT STEW / DAY SKIPPER PACKAGE

This package has been crafted to turbo-charge your skills for both the INTERIOR AND EXTERIOR. Whether you're chasing the wind on deck or perfecting service below, this course is for those who don't just dream of a superyacht career, but are ready to fully claim it. Get the insider knowledge and real world expertise you need to not only land your dream job, but to own it like a seasoned pro.

WHO IS THIS COURSE FOR?

The ambitious individual who prefers Sailing over motoring but wants to master both worlds – becoming a superyacht Stew with the ability to drive the yacht and take command on deck.

Whether you're looking to steer with confidence or serve with excellence, this course equips you with the essential regulatory skills, giving you the confidence to stand out as a true superyacht professional on either a sail or motor yacht.

SUPERYACHT STEW COURSE

After completing the SYNC Superyacht Stew course you will be skilled in silver service, flower arranging, wine pairing, barista skills, table setting and all areas of interior yacht maintenance which will be applied on a Superyacht.

Not only will you be proficient in what is required of you as a Stewardess / Steward, but you will know exactly what Captains want, which type of yacht is ideal for you, and how to get where you want to go in the superyacht industry.

This preparatory course is perfect to feel confident joining the Superyacht industry as a Stew guided by experienced Chief Stewardesses.

DURATION

5 days

SUPERYACHT STEW COURSE

COURSE CONTENT

- Superyacht Industry Overview: Realities, onboard systems, and hierarchy and yacht Familiarisation
- Job Hunting, Contracts & Safety
- Onboard Safety
- Wine & Mixology
- Service Skills
- Housekeeping
- Laundry Mastery
- Floral Design
- Guest Service
- Visa Guidance
- Crew Networking
- E-SIM Discounts
- Financial Advice

DECKHAND COURSE

This Deckhand course gets you exposed to the detail-oriented nature of the industry while being guided by a highly qualified and Experienced crew.

Duties

- **Vessel Maintenance:** Cleaning, polishing, and washing the exterior of the yacht.
- **Line Handling:** Assisting with mooring, docking, and anchoring operations.
- **Water Sports Setup:** Preparing and managing jet skis, tenders, and other equipment.
- **Safety Operations:** Conducting safety drills, maintaining safety equipment, and watchkeeping.
- **General Repairs:** Basic maintenance tasks like painting, varnishing, and minor fixes.
- **Guest Assistance:** Providing support during water activities and excursions.
- **Inventory Management:** Tracking and restocking deck supplies and equipment.
- **Team Collaboration:** Supporting crew members with daily tasks and special events.

DURATION

4 days

DECKHAND COURSE

COURSE CONTENT

- How, when and where to look for work / Interview skills
- Visas, Passports & CV's
- Rope work
- Splicing
- Wash-down procedures
- Teak maintenance
- Your duties as deck crew Painting, Varnishing and Fairing, Watch keeping
- Mooring operations Anchoring procedures

FOOD SAFETY LEVEL II

The Highfield Food Safety Level 2 is a widely recognized food safety certification that provides essential knowledge for anyone involved in the preparation, handling, or serving of food. It is particularly important for those working in the food industry, including restaurants, hotels, catering businesses, and other food-related environments, as well as on superyachts and cruise ships. Public confidence in terms of food safety is a major concern for any business in the food sector.

It is a requirement that anyone involved in food handling on board an MCA approved vessel must be appropriately trained in food safety. This is for anyone working with food in any capacity, including kitchen staff, chefs, food handlers and catering staff in the hospitality industry, superyacht crews, or catering businesses. It's suitable for people who have basic knowledge of food handling and wish to ensure they meet food safety regulations and standards.

DURATION

5 days

FOOD SAFETY LEVEL II

COURSE CONTENT

- Introduction to food safety.
- Microbiological hazards.
- Food poisoning and its control.
- Contamination hazards and controls.
- HACCP from delivery to service.
- Personal hygiene.
- Food premises and equipment
- Food pests and pest control.
- Cleaning and disinfection.
- Food safety enforce

STCW + DSD

STCW + DSD is a vital convention that standardised the training, certification, and working conditions of seafarers worldwide to improve maritime safety and ensure that those working at sea are properly prepared for their duties.

STCW stands for the International Convention on Standards of Training, Certification, and Watchkeeping for Seafarers. It is a key international maritime treaty established by the International Maritime Organization (IMO), which sets standards for the training, certification, and watchkeeping of seafarers to ensure that they have the necessary skills and competence to work safely and effectively on ships.

This is required by anyone working on a commercial vessel, including officers, engineers, ratings, and other crew members. To ensure their vessels are compliant with international maritime standards and that their crew is properly trained. Key Aspects include Training Standards, Certification, Watchkeeping, Safety and Emergency Procedures, Medical Fitness and Seafarers' Rights.

DURATION

11 days

STCW + DSD

COURSE CONTENT

- Personal Safety & Social Responsibility (PSSR)
- Elementary First Aid (EFA)
- Personal Survival Techniques (PST)
- Marine Fire Fighting (MFF)
- Designated Security Duties (DSD)

RYA POWERBOAT LEVEL 2

This course equips individuals with the essential skills and foundational knowledge required for competent powerboat operation and serves as the foundation for the International Certificate of Competence (ICC).

The RYA Powerboat Level 2 course is widely regarded as the standard qualification for recreational power boating in the UK and internationally. It is aimed at individuals looking to operate a powerboat safely and competently.

The RYA Powerboat Level 2 certificate qualifies you to drive powerboats with an engine up to 10 meters (33 feet) in length. The course covers both planing and displacement hulls, so you're trained to operate a variety of boat types.

This licence allows you to operate a boat up to 2 miles from the shore, assuming you are within the confines of non-tidal waters (like inland lakes, rivers, or canals). For tidal waters (such as coastal waters), this can extend up to 5 miles from the shore, provided you adhere to the limitations and safety precautions outlined during your training.

DURATION

2 days

RYA POWERBOAT LEVEL 2

COURSE CONTENT

- Boat handling (including low-speed maneuvers and planing speeds)
- Man-overboard recovery
- Basic navigation (reading charts, compasses, buoys)
- Understanding collision regulations (ColRegs)
- Safe towing techniques
- Safety and emergency procedures (equipment checks, MOB, and capsize drills)
- Environmental awareness

@superyachtstew_sync

RYA PWC (JETSKI)

This proficiency course prepares you for riding safely and responsibly designed for first-time and experienced riders alike.

This certificate is required for launching in UK harbours and can be used to apply for the International Certificate of Competence, which is commonly required when using a personal watercraft abroad.

The RYA Personal Watercraft (PWC) Licence is a widely recognized qualification that allows you to safely operate personal watercraft, such as jetskis, wave runners, or similar small motorized craft.

The main purpose of the RYA PWC Licence is to enable you to operate a personal watercraft (PWC) safely, including jetskis, waverunners, and other similar craft.

You will learn key safety principles, such as how to perform safe starts, maneuver in tight spaces, and handle the PWC at different speeds, especially under challenging conditions. You'll also learn techniques for man-overboard recovery and safe docking.

The course covers the basics of navigating a PWC, including understanding the rules of the road (Collision Regulations), local navigation markers, and safe operating distances from shore. It also teaches you to avoid hazards such as shallow water, rocks, and other vessels.

DURATION

1 day

RYA PWC (JETSKI)

COURSE CONTENT

- Launching
- Handling and recovery skills
- Passage planning and decision making
- High and low-speed riding skills
- Essential safety information
- Collision avoidance and orientation at sea

@superyachtstew_sync

RYA COMPETENT CREW PRACTICAL

This course is for beginners and those who would like to become active crew members. Virtually all of the course is hands-on. You are the crew - without you, the sails won't go up and the boat won't be steered. By the end of the course, you should be able to steer, handle sails, keep a lookout, row a dinghy, and assist in all day-to-day duties on board.

The RYA Competent Crew Course is an excellent starting point for anyone interested in becoming an effective member of a yacht crew, particularly for those pursuing careers as stewardesses or deckhands on superyachts.

Benefits for Stews and Deckhands

For a Stew. This enhances your overall understanding of yacht operations, improves guest service, and contributes to safety.

For a Deckhand it provides essential sailing skills, improves role efficiency, and prepares you for emergency situations.

Qualification

You will be a competent crew member, able to assist with sailing, maneuvering, and emergency procedures but not qualified to command or operate a yacht independently.

This prepares you to assist on sailing yachts but does not qualify you to drive or command a vessel.

You will be trained to sail in moderate coastal conditions, not in extreme weather.

DURATION

5 days On board

RYA COMPETENT CREW PRACTICAL

COURSE CONTENT

- Knowledge of sea terms and parts of a boat
- Rigging and sails
- Sail handling
- Ropework
- Fire precautions and fighting
- Personal safety equipment
- Man overboard
- Emergency equipment
- Meteorology
- Seasickness
- Helmsmanship
- General duties
- Manners and customs
- Rules of the road
- Dinghies

@superyachtstew_sync

RYA DAY SKIPPER THEORY & PRACTICAL

The RYA Day Skipper Theory and Practical Course teaches advanced sailing, navigation, weather interpretation, passage planning, and safety, preparing you to skipper a yacht in coastal waters on short daytime passages.

These RYA Day Skipper courses are done in two parts. The first covers theory and knowledge-based training, such as meteorology, navigation, pilotage techniques, and collision regulations; the second is putting this theory into practice in addition to developing the practical skippering skills of crew management, boat handling, practical pilotage, and passage making.

Benefits for Stews and Deckhands:

For Stews, this increases your understanding of sailing operations, enhances safety skills, and helps with guest excursions and passage planning.

For Deckhands this increases your responsibility on board, allows you to take command of the yacht on short passages, and provides better navigation and weather knowledge.

What You Can Do with the Qualification?

You can skipper a yacht up to 24 meters in coastal waters and on day passages (within 30 nautical miles of a safe haven) in coastal and protected waters. You can sail in moderate weather conditions, but the qualification is limited to day sailing in coastal waters and not for ocean crossings or extreme conditions.

DURATION

5 days On board

RYA DAY SKIPPER THEORY & PRACTICAL

COURSE CONTENT

Locating and using information such as weather forecasts, tidal data, or navigational information in the planning and execution of a passage; Gain a working knowledge of the collision avoidance rules, marine pollution responsibilities, and carriage of safety equipment requirements for small yachts. Learn and plan the use of pilotage and navigation techniques, passage planning strategy, and dealing with an emergency. Definition of position, course, and speed; Navigational charts and publications & drawing instruments; Compass, Chart work, Preparation for sea, Deck work, Meteorology, Rules of the road, Maintenance and repair work, Engine understanding, Victualling, Yacht handling under power, Yacht handling under sail and Night cruising
